

Swayam Gandhi

Full Stack Developer (Node.js / React / MongoDB)

Khanna, Punjab, India | 8284905725 | gandhiswayam772@gmail.com

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of professional experience building and shipping production RESTful APIs and responsive React interfaces across 10+ live client projects. Skilled in owning the full development lifecycle, from backend architecture in Node.js and MongoDB through to frontend implementation, with a track record of cutting delivery timelines through reusable, modular component design. Currently completing an MCA at Chitkara University (expected 2025).

WORK EXPERIENCE

Backend Developer — Mining Discovery

Mohali, Punjab, India | Full-Time | June 2025 – Present

- Engineered 8+ RESTful API endpoints in Node.js, cutting average data-fetch latency by ~40% and measurably improving analytics dashboard responsiveness.
- Architected a modular backend service layer that reduced onboarding time for new data workflows from days to hours, enabling the team to ship 3 new pipeline integrations within a single sprint.
- Diagnosed and resolved 12+ critical bugs in production backend services, eliminating a recurring data-sync failure that had affected 3 client reports and improving overall system uptime.
- Established a unit-testing baseline covering 70%+ of core API routes, reducing regression issues by an estimated 30% across subsequent releases.
- Delivered 6 production client sites — including miningdiscovery.com, harvinsolutions.com, and digipowerx.com — as sole or primary backend developer.

Web Developer Intern — Agentuit

Mohali, Punjab, India | Internship | October 2024 – May 2025

- Translated 15+ Figma/XD design screens into pixel-accurate, fully responsive HTML/CSS/JS interfaces, reducing design-to-code iteration cycles from 3 rounds to 1.
- Built and maintained Git branching workflows across 2 concurrent client projects, enabling zero merge-conflict deployments for a 3-person team.
- Developed a component library of 20+ reusable UI elements, accelerating feature delivery by an estimated 25% on a hotel consultancy project.
- Implemented a lazy-loading strategy that raised Lighthouse performance scores on a production bakery site from 61 to 89.

LIVE PROJECTS

miningdiscovery.com | harvinsolutions.com | digipowerx.com | loyalistexploration.com | highspirits.au | midis.in | mobiletyrechampions.com | daughterslovebakery.com

TECHNICAL SKILLS

Backend: Node.js, Express.js, RESTful API Design, System Integration

Frontend: React, HTML5, CSS3, JavaScript (ES6+), Responsive Design

Databases: MongoDB, Oracle, SQL Server

Tooling: Git, GitHub, Version Control, Debugging & Profiling

Practices: Cross-functional Collaboration, Agile Delivery, Self-Directed Learning

EDUCATION

Master of Computer Applications (MCA)

Chitkara University, Rajpura | 2023 – 2025 (Expected)

Bachelor of Computer Applications (BCA) — Application Development

Chitkara University, Rajpura | 2020 – 2023
